

Walshs Painted

Walshs Painted is a range of coloured, back painted glass for interiors that offers a striking solution for walls, surfaces, and borders. Walshs Painted delivers the ultimate in design flexibility in terms of application, colour, design, size, and shape.

Homeowners and commercial building occupants can achieve a truly bespoke room and environment that is safe, hygienic, and easy to maintain – all while capitalising on the unique and naturally captivating qualities of Walshs Painted.

Walshs Painted is available in an exciting standard colour range. We also offer a colour matching service – providing endless possibilities – and the PPG range of colours. For a truly representative colour the use of Low Iron glass can be considered.

Benefits of Walshs Painted
