

Walshs Pattern Privacy

Walshs Pattern Privacy glass is an ideal and affordable option for both commercial and living projects, cleverly enabling architects to design a space that allows natural light into an environment without sacrificing privacy.

Providing degrees of privacy through obscuration whilst still enabling light diffusion, this unique product is available in a broad range of clear, etched or toned pattern glass options to achieve the right level of discretion for your project. Sizes range from 4mm to 12mm.

Benefits of Walshs Pattern Privacy

- Walshs Pattern Privacy can be toughened or laminated to become a Grade A safety glass AS2208.
- Walshs Pattern Privacy can be supplied as a toughened laminate or incorporated into Walshs TwinSeal DGU.
- A cost-effective option when discretion is important.
- Clear, etched and tinted options available.
