

Walshs Sandblasted

Walshs Sandblasted is a textured and/or etched glass designed for privacy, company logos, shower screens and decorative mirrors. It provides varying degrees of privacy through obscuration whilst still enabling light diffusion.

Walshs Sandblasted allows architects to design spaces that enable natural light into a commercial or residential space without sacrificing privacy. It is available in a range of styles to suit your aesthetic requirements, and we welcome customers to supply their own artwork.

Benefits of Walshs Sandblasted

- Walshs Sandblasted can be toughened or laminated to become a Grade A safety glass AS2208.
- Walshs Sandblasted can be supplied as a toughened laminate or incorporated into Walshs TwinSeal DGU.
- A cost-effective privacy option.
- Clear, etched, and tinted options available.
